Verizon Wireless and Apple today announced that the iPhone 4 will be available on the Verizon Wireless network beginning on Thursday, February 10. Qualified Verizon Wireless customers will be given the exclusive opportunity to pre-order iPhone 4 online on February 3, ahead of general availability.

iPhone 4 is the most innovative phone in the world, featuring Apple's stunning Retina™ display, the highest resolution display ever built into a phone resulting in super crisp text, images and video, and FaceTime, which makes video calling a reality. iPhone 4 on Verizon Wireless will also include new Personal Hotspot capabilities allowing customers to use iPhone 4 to connect up to five Wi-Fi enabled devices.

"We are pleased to introduce millions of wireless users to the industry leading iPhone 4 on the nation's most reliable network," said Lowell McAdam, president and chief operating officer of Verizon. "This is an important step for the industry as two great companies join forces to give wireless customers one of the most important technological additions to the mobile landscape this century."

"Verizon Wireless customers have told us they can't wait to get their hands on iPhone 4, and we think they are going to love it," said Tim Cook, Apple's chief operating officer. "We have enormous respect for the company Verizon has built and the loyalty they have earned from their customers."
